

United Nations Sustainable Development Goals

In 2015, the United Nations adopted the 17 Sustainable Development Goals (SDGs) to end poverty, protect the planet and ensure prosperity for all by 2030.

Our purpose of getting energy right for our customers, communities and planet contributes to many of the SDGs. We have mapped the SDGs to our four sustainability pillars of customers, communities, planet, and people and culture. The table below shows some of the actions we have taken in FY2023 that are helping contribute to the SDGs.

SDG	Actions in FY2023 that contribute to the United Nations SDGs	Location in Sustainability Report
 3 GOOD HEALTH AND WELL-BEING	<ul style="list-style-type: none"> • Focused on learning from incidents and sharing insights with employees across our business and partner organisations. • Improved TRIFR from 4.0 to 3.8. • Our people and culture team organised a range of activities and initiatives across the business in FY2023, with a specific focus on mental health. 	Safety, health and wellbeing Safety, health and wellbeing Safety, health and wellbeing
 4 QUALITY EDUCATION	<ul style="list-style-type: none"> • The Origin Energy Foundation distributed over \$2.1 million to charity partners in FY2023. • Donated solar lights to children living in energy poverty, working with the Origin Energy Foundation and its partner SolarBuddy. • Reached 5,000 students through our employee volunteering program. • Announced a new partnership with Yalari, to set up education scholarships for First Nations children across Australia. 	Supporting communities Supporting communities Supporting communities Inclusion
 5 GENDER EQUALITY	<ul style="list-style-type: none"> • Achieved 46 per cent of women in senior roles in FY2023 and continue to deliver equal average pay for men and women at each job grade (linked to SDG8). • The Pride@Origin Committee worked to create a supporting, safe and inclusive workplace for our LGBTIQA+ communities, focussing on aligning Origin to the Australian Workplace Equality Index (AWEI) as our external benchmark (linked to SDG10). • Ranked 73rd globally in Equileap's 2023 Gender Equality Global Report & Ranking. 	Inclusion Inclusion Inclusion
 7 AFFORDABLE AND CLEAN ENERGY	<ul style="list-style-type: none"> • Grew our GreenPower sales volumes by nine per cent in FY2023, to 533 GWh. • Grew our Virtual Power Plant to 815 MW across more than 276,000 connected services, from 258 MW at June 2022. • Installed 68 MW of solar. • Supported access to energy through our Power On program. • Made final investment decision on the first stage of a large-scale battery at Eraring Power Station. We have committed to an investment of approximately \$600 million to deliver a 460MW battery with a dispatch duration of 2 hours at our Eraring site (linked to SDG 9). 	Helping our customers decarbonise Energy and climate change Helping our customers decarbonise Energy affordability and support for vulnerable customers Energy and climate change

SDG	Actions in FY2023 that contribute to the United Nations SDGs	Location in Sustainability Report
	<ul style="list-style-type: none"> Established JV for Gippsland offshore wind and acquired New England REZ acreage for wind development (linked to SDG 9). 	Energy and climate change
	<ul style="list-style-type: none"> Spent 20 per cent of our total direct and indirect spend with regional suppliers (linked to SDG 10). Spent \$24.4M directly and indirectly with Indigenous suppliers, up from \$17M in 2022 (linked to SDG10). 	<p>Responsible procurement</p> <p>Responsible procurement</p>
	<ul style="list-style-type: none"> Participated in a hydrogen powered bus trial with Transport for NSW and Central Coast bus company, Red Bus Services. Hosted seven EV Drive Day events, with support from the NSW Government. Signed an agreement for biomethane supply being produced as part of a trial at the Malabar Biomethane Demonstration Project, a partnership between ARENA, Sydney Water, and Jemena (linked to SDG 7). Worked with multiple network companies on a trial to install up to 80 community batteries in Queensland and NSW (linked to SDG 7). Through the Marketplace project several First Nations businesses have secured contracts with Origin or our suppliers including Kitja Services which year signed a contract with Origin to supply paint, coating and insulation services to our gas assets. 	<p>Energy and climate change</p> <p>Helping our customers decarbonise</p> <p>Energy and climate change</p> <p>Helping our customers decarbonise</p> <p>Responsible procurement</p>
	<ul style="list-style-type: none"> Concluded our first Stretch RAP in 2022, and launched our second Stretch RAP in FY2023 (linked to SDG8). Our spend with First Nations suppliers was \$24.4 million, a 44 per cent increase from FY2022. 99 Origin employees voluntarily self-identified as Aboriginal or Torres Strait Islander, an increase from 81 in FY2022. We refined our community engagement strategy to focus on three key areas: family violence, natural disasters, and homelessness; where we believe we can work with community partners to help affected customers and communities transition from crisis to recovery. 	<p>Inclusion</p> <p>Responsible procurement</p> <p>Inclusion</p> <p>Supporting vulnerable customers and communities</p>
	<ul style="list-style-type: none"> Provided 11,938 ML of treated and untreated water for beneficial use. Launched several new EV products, including our 360 EV Energy Plan, which provides five hours of free electricity between 10am and 3pm to eligible EV owners to encourage EV charging at times when solar generation is high, meaning charging with lower-cost and lower-carbon energy (linked to SDG 7). 	<p>Water</p> <p>Helping our customers decarbonise</p>
	<ul style="list-style-type: none"> Published our CTAP, which outlined our ambition to lead the energy transition through cleaner energy and customer solutions, detailed updated targets across Scope 1, 2 and 3 emissions to accelerate emissions reduction across our business, and our long-term ambition to achieve net zero Scope 1, 2 and 3 emissions by 2050. Actively engaged in responsible engagement in climate policy. 	<p>Energy and climate change</p> <p>Energy and climate change</p>

SDG	Actions in FY2023 that contribute to the United Nations SDGs	Location in Sustainability Report
	<ul style="list-style-type: none"> Worked with communities to restore and protect the local biodiversity through programs such as fish restocking in local waterways. Monitored and managed our biodiversity offset initiatives, including Duke's Plain in central Queensland. 	<p>Biodiversity</p> <p>Biodiversity</p>
	<ul style="list-style-type: none"> The Origin Energy Foundation partnered with not-for-profit organisations seeking to break the cycle of disadvantage and empower young Australians to reach their potential. Origin employees donated more than 7,000 hours to good causes through the Origin Energy Foundation. The Foundation continued its partnering with SolarBuddy to provide affordable energy in the form of solar lights to children living in energy poverty globally (linked to SDG 4). Continued to collaborate with CSIRO's Gas GISERA to establish independent evidence-based data on fugitive emissions, as well as collecting methane emissions measurements from our CSG processing facilities to support a CSIRO study. Developed new partnerships with Thriving Communities Partnership, The Salvation Army and StreetSmart, to support our community engagement strategy to help build more resilient communities across Australia. 	<p>Supporting communities</p> <p>Supporting communities</p> <p>Greenhouse gas emissions</p> <p>Energy affordability and supporting vulnerable customers</p>
